Document 1: JP, 9-39363, A (Riso Kagaku Corp.), 10 February, 1997 (10.02.97), full text, Figs. 1-13

Document 2: Microfilm of the specification and drawings first annexed to the written application of Japanese Utility Model Application No. 20181/1989 (Laid-open No. 148360/1990) (Riso Kagaku Corp.), 17 December, 1990 (17.12.90), full text, Figs. 1-5

Claims 1-6 and 8-10

The subject matters of these claims are neither described in any of the documents cited in the ISR nor obvious to a person skilled in the art.

Claim 7

Document 1 cited in the ISR (the portions indicated above, especially the claims) describes using an ink storing container showing ink information concerning the kind of ink stored inside. Furthermore, document 2 cited in the ISR (the portions indicated above, especially the claims) describes forming an indicating portion allowing the kind of ink to be identified, on the surface of an ink container.

So, since documents 1 and 2 respectively describe the same ink container as that specified in claim 7, the subject matter of claim 7 does not appear to be novel or to involve an inventive step.
